Candidate successfully completed Training for Tyre Fitter in Varanasi, UP

NIJJAMUDIN

I belong from Varanasi, UP. Being born in a lower middle class family I started working in the early days of my life and started my career in repairing vehicles by working in a small tyre-fitting job. I recognize myself as a tyre fitter but a skilled one, before this training program I use to do a lot of manual work, here in this course I learnt how to use machines for the repairing tyres as well as learnt other skills. I am very fortunate to get in touch with RSDC's aided RPL i.e. recognition of prior learning and training program, this program helped me in discovering many technical skills.

I want to extend my heartfelt gratitude for RSDC and government of India for introducing this course.
