

QUALIFICATIONS PACK - OCCUPATIONAL STANDARDS FOR RUBBER INDUSTRY

What are Occupational Standards(OS)?

OS describe what individuals need to do, know and understand in order to carry out a particular job role or function

OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

Introduction

Qualifications Pack- Rubber Nursery Worker- General

SECTOR: RUBBER INDUSTRY SUB-SECTOR: Rubber Plantation (Natural Rubber Production) OCCUPATION: Rubber Nursery Management

REFERENCE ID: RSC/ Q 6005

ALIGNED TO: NCO-2004/NIL

Brief Job Description: Rubber Nursery Worker carries out all the labour oriented nursery activities. He is responsible for the timely completion of all seasonal activities facilitating smooth running of the nursery and production of quality planting materials as envisaged by the organization.

Personal Attributes: This job requires the individual to work earnestly for the production of quality planting materials and to work hard to achieve the target fixed for the year. He should have capacity for undertaking labour oriented activities in connection with the production of planting materials, infrastructure development and should have basic knowledge in nursery practices and make the task easier by expertise.

Job Role	Rubber Nursery Worker - General
Role Description	Rubber Nursery Worker carries out all the labour oriented nursery activities. He is responsible for the timely completion of all seasonal activities facilitating smooth running of the nursery and production of quality planting materials as envisaged by the organization
NSQF level	4
Minimum Educational Qualifications*	10 th course completed and have good health
Maximum Educational Qualifications*	Basic knowledge in Rubber Nursery activities (labour oriented)
Training (Suggested but not mandatory)	Training in all aspects of labour oriented nursery activities
Minimum Job Entry Age	18 years
Experience	A matriculate with minimum 6 months experience in nursery work is desirable.
Applicable National Occupational Standards (NOS)	Compulsory: 1. <u>RSC/N 6010 (Rubber nursery practices- Labour oriented)</u> 2. <u>RSC/N 5005 (Natural Resource Management)</u> 3. <u>RSC/N 5006 (Provide Feedback to Higher Authorities)</u> Optional: NA
Performance Criteria	As described in the relevant OS units

Qualifications Pack For Rubber Nursery Worker - General

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the
	economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics
	and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector,
	occupation, or area of work, which can be carried out by a person or a group
	of persons. Functions are identified through functional analysis and form the basis of OS.
Job Role	Job role defines a unique set of functions that together form a unique
	employment opportunity in an organization.
OS	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of
Feriorinance Criteria	performance required when carrying out a task.
NOS	
	NOS are Occupational Standards which apply uniquely in the Indian context.
Qualifications Pack	Qualifications Pack Code is a unique reference code that identifies a
Code	qualifications pack.
Qualifications Pack	Qualifications Pack comprises the set of OS, together with the educational,
	training and other criteria required to perform a job role. A Qualifications
	Pack is assigned a unique qualification pack code.
Unit Code	Unit Code is a unique identifier for an Occupational Standard , which is denoted by an 'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful
	to anyone searching on a database to verify that this is the appropriate OS
	they are looking for.
Knowledge and	Knowledge and Understanding are statements which together specify the
Understanding	technical, generic, professional and organizational specific knowledge that an
_	individual needs in order to perform to the required standard.
Organizational Context	Organizational Context includes the way the organization is structured and
C	how it operates, including the extent of operative knowledge managers have
	of their relevant areas of responsibility.
Technical Knowledge	Technical Knowledge is the specific knowledge needed to accomplish specific
5	designated responsibilities.
Core Skills or Generic	Core Skills or Generic Skills are a group of skills that are key to learning and
Skills	working in today's world. These skills are typically needed in any work
	environment. In the context of the OS, these include communication related
	skills that are applicable to most job roles.

National Occupational Standard

Overview:

This unit is about Nursery development Practices

NOS National Occupational Standards

Rubber nursery Practices (Labour oriented)

Unit Code	RSC/N 6010
Unit Title (Task)	Rubber nursery Practices (Labour oriented)
Description	This unit is about Nursery development Practices
Scope	 This unit/task covers the following: Proficiency in carrying out work in connection with- Sorting and temporary storage of seeds Germination of seeds- preparation of land germination beds, sowing and after care Planting- preparation of land and nursery bed, picking of germinated seeds, transportation, planting and after care Seedling nursery maintenance and disease management Development of multi clone bud wood nursery & maintenance Raising poly bag and root trainer plants and upkeep Preparation of planting materials for sale
Performance Criteria	PC) w.r.t the scope
Element	Performance Criteria
Sorting and temporary storage of seeds	To be competent, the individual on the job must be able to carry out labour oriented work in connection with– PC1. Sorting of quality of the seeds PC2. Viability test of the seed PC3. Temporary storage of seeds
Germination of seeds	 PC4. Carry out timely sowing of the seeds PC5. Prepare the land and make germination beds as per specification PC6. Placing of seeds in the germination medium and cover with coir mat/gunny bags PC7. Watering the germination beds to maintain optimum moisture
Planting	 PC8. Cast proper land preparation technique and design seedling nursery Beds as per specification PC9. Select the best quality germinated seeds and transport without damage PC10. Carry out planting of germinated seeds with suitable spacing

PC11. Ensure planting of germinated seeds at the right stage

PC12. Irrigate, if required

	PC13. Carry out timely weeding (minimum three rounds- before fertilizer
Seedling nursery	applications and bud grafting)
maintenance and	PC14. Carry out fertilizer application (basal dressing with compost and rock
disease management	phosphate; 2500 kg of 10:10:4:1.5 NPKMg per effective hectare (1 st
	dose) and 550 kg urea per effective hectare (2 nd dose).
	PC15. Carry out mulching irrigation etc
	PC16. Identify diseases and prescribe suitable chemicals and undertake
	Plant protection measures
	PC17. Thinning out of weaklings/undesired seedlings
	PC 18. Carry out seedling census
	PC19. Identify clones for raising multi clone bud wood nursery
Development of	PC20. Plant mother plants with spacing as per specification
multi-clone Bud	PC21. Clone identification and labelling
wood nursery &	PC22. Weeding
maintenance	PC23. Application of fertilizer ((basal dressing with 150 kg powdered rock
	phosphate per hectare; NPKMg 10:10:4:1.5 mixture at the rate of 250
	g/plant in two split doses and 10:10:4:1.5 mixture at the rate of 125
	g/plant two to three months after cutting back)
	PC24. Identify diseases and prescribe suitable chemicals and undertake
	Plant protection measures
	PC25. Carry out Pruning
	PC26. Collection of bud wood for budding/sale (for young bud grafting/Green
	Bud grafting/brown bud grafting
	PC27. Cut backing of discarded/unutilised bud wood
	R AND
	PC28. Seed at stake method- placing germinated seeds in the poly bags/Root
Production of	Trainer cups for raising seedlings for bud grafting
Advanced planting	PC29. Select good quality seeds
materials (Poly bag	PC30. Germination of seeds
plants and root	PC31. Plant in the poly bags/root trainer cups & after care
trainer plants)	PC32. Cut backing of bud grafted plants for further development
	PC33. Direct planting of Bud grafted stump method- planting bud grafted
	Stumps in the poly bag/ root trainer cups.
	PC34. Selection of poly bags of appropriate size and specifications
	PC35. Preparation of potting mixture
	PC36. Planting of germinated seeds/bud grafted stumps
	PC37. Watering for maintaining optimum soil moisture
	PC38. Provide shade to regulate sun light
	PC39. Fertilizer application and disease management
	PC40. Selection of root trainer cups of appropriate size and specifications
	PC41. Seasoning of coir pith (soaking in water to remove resins, tannin etc
	PC41. Preparation of potting mixture (chemical treatment)
	PC43. Potting mixture filling
	PC43. Plant germinated seeds/ bud grafted stumps and after care
	PC44. Plant germinated seeds/ bud granted stumps and after care PC45. Watering for maintaining optimum soil moisture
	PC46. Provide shade to regulate sun light
	PC47. Fertilizer application and disease management
	PC48. Root air pruning and Hardening

NOS

Preparation of planting materials for sale	 PC49. Pulling out of bud grafted plants PC50. Cut backing of stock plant, pruning roots and waxing PC51. Counting, Bundling and packing of budded stumps in banana sheath PC52. Cutting of bud wood, waxing and packing in banana sheath for Transportation PC53. Sorting and loading of poly bag plants for sale PC54. Mounting on racks and loading of root trainer plants for sale
Knowledge and Underst	anding (K)
A. Organizational Context	The user/individual on the job needs to know and understand:
(Knowledge of the	KA1. Importance of full capacity utilization of inputs

CRITERIA FOR ASSESSMENT OF TRAINEES

Job Role	Qualifications Pack- Rubber Nursery Worker- General
Qualification Pack	RSC/Q 6005
Sector Skill Council	Rubber Skill Development Council
Guidelines for Assessment	

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC

2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC

3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)

4. Individual assessment agencies will create unique evaulations for skill practical for every student at each examination/training center based on this criteria

5. To pass the Qualification Pack, every trainee should score a minimum of 70% in every NOS

6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

			Marks Allocation
